I used this study guide to prepare for my ACS exam in Gen Chem I and found it extremely helpful. The questions on the exam are very similar to the questions in this study guide.

### **Preparing for Your ACS Examination in General Chemistry**

American Chemical Society: Chemistry for Life. Developments in Modern Polymer Science. When Wallace H. Carothers joined the research staff of E.I. du Pont de Nemours and Company (DuPont) in early 1928, polymer science was still in its infancy – poorly understood and full of uncertainties.

### **Wallace Carothers and the Development of Nylon - Landmark**

A good study guide to test your knowledge and give direction to your studying. Saying that, if you have a great chemistry teacher and feel comfortable with your knowledge, it isn't worth it.

### **Preparing for Your ACS Examination in General Chemistry**

CURRENTLY HIRING TWO TENURE-TRACK FACULTY POSITIONS At the Department of Chemistry, our passions are broad and far-reaching. Our researchers have access to world-class facilities that help them solve critical problems.

Fullerene chemistry is a field of organic chemistry devoted to the chemical properties of fullerenes. Research in this field is driven by the need to functionalize fullerenes and tune their properties. For example, fullerene is notoriously insoluble and adding a suitable group can enhance solubility. By adding a polymerizable group, a fullerene polymer can be obtained. Functionalized ...

### **Fullerene chemistry - Wikipedia**

Abiogenesis, or informally the origin of life, is the natural process by which life arises from non-living matter, such as simple organic compounds. The transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular self-replication, self-assembly, autocatalysis and cell membranes.
