A: You could find out who currently owns the mineral rights under the property by searching the land records at the county clerk's office, or online. In lieu of that you could contact a local abstract office and have them do the search for you. The county clerk's records can be searched for free however so I'd try that first.

Polycarbonates (PC) are a group of thermoplastic polymers containing carbonate groups in their chemical structures. Polycarbonates used in engineering are strong, tough materials, and some grades are optically transparent. They are easily worked, molded, and thermoformed. Because of these properties, polycarbonates find many applications.
