About | 37th Energy Management Congress 2019

CEE is the US and Canadian consortium of gas and electric efficiency program administrators. We work together to accelerate the development and availability of energy efficient products and services for lasting public benefit.

CEE's Consortium for Energy Efficiency | Working together

Renewable energy is energy that is collected from renewable resources, which are naturally replenished on a human timescale, such as sunlight, wind, rain, tides, waves, and geothermal heat. Renewable energy often provides energy in four important areas: electricity generation, air and water heating/cooling, transportation, and rural (off-grid) energy services.

Renewable energy - Wikipedia

Xcel Energy provides the energy that powers millions of homes and businesses across eight Western and Midwestern states. Learn more.
