As of September 1, 2017, Oncourse is fully retired, and no access is available. In compliance with university data retention policies, Oncourse gradebook data will be preserved through the end of August 2021, five years from the end of the last term during which courses were taught in Oncourse.

### **About the Oncourse retirement**

From the reviews of the second edition: "This second edition is to start each chapter with the presentation of a case study and to end each chapter with a thorough discussion of that study.

### **Mathematics for Finance: An Introduction to Financial**

This project would fit nicely into a Middle School Pre-Algebra class or an Algebra 1 class learning equation solving. I find that these serve well as Chapter Reviews before Tests.

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
