Financial and Managerial Accounting, Binder Ready Version

Management accounting information differs from financial accountancy information in several ways: . while shareholders, creditors, and public regulators use publicly reported financial accountancy, information, only managers within the organization use the normally confidential management accounting information

Management accounting - Wikipedia

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
