Systems engineering is an interdisciplinary field of engineering and engineering management that focuses on how to design and manage complex systems over their life cycles. At its core, systems engineering utilizes systems thinking principles to organize this body of knowledge. Issues such as requirements engineering, reliability, logistics, coordination of different teams, testing and ...

A fire department (American English) or fire brigade (British English), also known as a fire protection district, fire authority or fire and rescue service is an organization that primarily provides firefighting services for a specific geographic area. Fire departments are most commonly a public organization who operate within a municipality, county, state, nation, or special district.

As you know, the CFEMA has been working on a standard vehicle inspection form. We felt that due to some unfortunate incidents throughout the country with apparatus, that a standard, simple form, to be used by the drivers, similar to one used by truck drivers in the private sector, can be used to catch possible problems with apparatus before a serious problem occurs.
