Landing Ship, Tank (LST), or tank landing ship, is the naval designation for ships built during World War II to support amphibious operations by carrying tanks, vehicles, cargo, and landing troops directly onto shore with no docks or piers. This provided amphibious assaults to almost any beach. The bow of the LST had a large door that would open with a ramp for unloading the vehicles.

Landing Ship, Tank - Wikipedia

Hemp, or industrial hemp (from Old English hænep), typically found in the northern hemisphere, is a variety of the Cannabis sativa plant species that is grown specifically for the industrial uses of its derived products. It is one of the fastest growing plants and was one of the first plants to be spun into usable fiber 10,000 years ago. It can be refined into a variety of commercial items ...
