Document file extension list File extensions used for various document and document template file types. In computer terminology, document file format can be described as a text, or binary data file type, used to store formatted documents (texts, pictures, cliparts, tables, charts, multiple pages, multiple documents etc.). Today, there is a multitude of incompatible document file formats.

Document file extensions list

Search the world's information, including webpages, images, videos and more. Google has many special features to help you find exactly what you're looking for.
