CHAPTER 6: Work and Energy Answers to Questions 1. Some types of physical labor, particularly if it involves lifting objects, such as shoveling dirt or carrying shingles up to a roof, are "work" in the physics sense of the word. Or, pushing a lawn mower would be work corresponding to the physics definition. When we use the word "work" for

The answer to this question requires advanced physics. However, let's say that there are some special particles that operate as messengers between the two objects. These messengers are the carriers of the force between these objects and therefore responsible for their interaction. There are four fundamental kinds of forces:
