The language of the Welsh developed from the language of Britons, according to academic T. M. Charles-Edwards. The emergence of Welsh was not instantaneous and clearly identifiable. Instead, the shift occurred over a long period of time, with some historians claiming that it had happened by as late as the 9th century, with a watershed moment being that proposed by Kenneth H. Jackson, the ...

The evolutionary emergence of language in the human species has been a subject of speculation for several centuries. The topic is difficult to study because of the lack of direct evidence. Consequently, scholars wishing to study the origins of language must draw inferences from other kinds of evidence such as the fossil record, archaeological evidence, contemporary language diversity, studies ...
