Structural functionalism, or simply functionalism, is "a framework for building theory that sees society as a complex system whose parts work together to promote solidarity and stability". This approach looks at society through a macro-level orientation, which is a broad focus on the social structures that shape society as a whole, and believes that society has evolved like organisms.

### Structural functionalism - Wikipedia

International Journal of Engineering Research and Applications (IJERA) is an open access online peer reviewed international journal that publishes research ..
