Innovation can be simply defined as a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business ...

To reduce emissions, one must invest in abatement capital, which has a long-lived effect on emissions. Borrowing the wording by Davis and Socolow (2014), investment in electric vehicles or building retrofitting is a hard commitment to emit less GHG during the lifetime of this equipment. For simplicity, abatement capital is directly measured in terms of avoided emissions, and baseline emissions ...
