

For well over a decade I have been completely immersed in constant research and constant awareness raising efforts in the battle to expose geoengineering. During this long and arduous march countless individuals have confronted me in search of a simple cure. In search of a simple solution that will ...

Abiogenesis, or informally the origin of life, is the natural process by which life arises from non-living matter, such as simple organic compounds. The transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular self-replication, self-assembly, autocatalysis and cell membranes.
