### Scientific Notation Word Problems - Fun Math

Once students have learned scientific notation and operations with scientific notation, these are some real-life word problems for them to work on so that they understand how much easier it is to solve real-world messy problems using scientific notation rather than standard notation.

### Scientific Notation Word Problems Worksheet - Scribd

Addition and Subtraction with Scientific Notation When adding or subtracting numbers in scientific notation, we have to remember that place value matters. For example when adding 123 and 56, we have to add the 6 and 3 because they are both in the ones place. In the same way, we have to add the 2 and 5 because they are both in the tens place.

### PA Textbook 17-18 FINAL - Charleston School District

writing numbers in scientific notation and develop real-world problems for each other to solve. Activity Text: Learning Outcomes Students will be able to convert decimal numbers to and from scientific notation

using positive and negative exponents • develop word problems using real-life data expressed in scientific notation

### • Scientific Notation • Classroom Activity

Scientific Notation Notes. Scientific notation is a short way to write very large or very small numbers. It is written as the product of a number between 1 and 10 and a power of 10. TO CONVERT A NUMBER INTO SCIENTIFIC NOTATION: • Create a number between 1 and 10 by moving the decimal to the left.
