One of the main sources of confusion and ambiguity in the creationâ€“evolution debate is the definition of evolution itself. In the context of biology, evolution is genetic changes in populations of organisms over successive generations.

### **Objections to evolution - Wikipedia**

Creationism is the religious belief that the universe and life originated "from specific acts of divine creation", as opposed to the scientific conclusion that they came about through natural processes. Creationism covers a spectrum of views including evolutionary creationism, a theological variant of theistic evolution which asserts that both evolutionary science and a belief in creation are ...

The basic question at issue in the contemporary origins debate is whether or not the world was created. It could be tempting to simply put participants in the discussion into two groupsâ€“creationists and evolutionistsâ€“and leave it at that. Some on both sides of the issue would like to do exactly ...
