Hi, I just bumped into this the other day and tried (still trying) to put some of the code to use in my bsc thesis, using XNA 3.0. ATM the only minor problem I've got is that when I draw the resolved rendertarget textures with the spritebatch, the first draws OK, but the other two appear as completely transparent/cyan, depending on the surface format.

History. Initial tools for the development of games on the Xbox 360 platform were bundled in the XNA Game Studio Express 1.0, released in December 2006, as a means of introducing newer programmers to the steps in game programming. Additional releases of the XNA Game Studio added further features with the core software libraries, but the created games were limited to the developer's own console ...

Mono is a free and open-source project to create an Ecma standard-compliant .NET Framework-compatible software framework, including a C# compiler and a Common Language Runtime. Originally by Ximian, it was later acquired by Novell, and is now being led by Xamarin, a subsidiary of Microsoft and the .NET Foundation. The stated purpose of Mono is not only to be able to run Microsoft .NET ...

So it's been almost a year and I have finally got around to finishing a new version of my screen capture project that supports Direct3D 9, 10, and 11! This solution still uses SlimDX for the Direct3D API wrapper along with EasyHook to perform the remote process hooking and IPC between the host process and target

process.
