Transgender youth are children and adolescents who are transgender and/or transsexual. Because transgender youth are usually dependent on their parents for care, shelter, financial support, and other needs, and because most doctors are reluctant to provide medical treatments to them, transgender youth face different challenges compared to adults.

Adolescence is a developmental stage of life that is shaped by changes in the body and mind, and by the environment [1]. Throughout the adolescent years, the body and brain grow and change, and while becoming accustomed to these changes, the adolescent must learn to negotiate new responsibilities, evolving relationships, and a new sense of self.

The Digital Youth Network is, at its core, a design-based research project. The research team works with DYN mentors, students, families, and other practitioners to better understand the impact of DYN initiatives and learning environments on youth, educators, organizations, and communities, identifying critical practices and informing iterations of the DYN model.
