

zoonoses communicable diseases common pdf

Infection is the invasion of an organism's body tissues by disease-causing agents, their multiplication, and the reaction of host tissues to the infectious agents and the toxins they produce. Infectious disease, also known as transmissible disease or communicable disease, is illness resulting from an infection.. Infections are caused by infectious agents including viruses, viroids, prions ...

Infection - Wikipedia

Introduction Communicable diseases. Communicable diseases are diseases that are as a result of the causative organism spreading from one person to another or from animals to people.

Lesson 1: Introduction to Communicable Diseases (include

Rabies is a serious disease caused by a virus mostly transmitted to humans by domestic dogs. The virus infects the brain and nervous system, and when the signs and symptoms of the disease appears it cannot be treated.
